

# ORMIS Forms & Reports

**10<sup>g</sup>**  
ORACLE<sup>®</sup>

## ORACLE Forms & Reports Migration to 6i/9i/10g

ORMIS is a service for migration of Oracle Forms and Reports to latest versions using our fully automated migration tool ORMIT.

ORMIT migrates Character and Client Server versions of Oracle Forms (V2.3 /3.0/6.0) and Reports (V 1.1 Sql Report Writer /V1.0 Sql \* Reports / 2.5 Developer Reports) to Oracle Forms and Reports version 6i, 9i or 10g.

The migration takes place without affecting the existing functionality and business logic in the older Forms version.

Descriptive log file generation during migration process provides audit trail and supports future references.

The entire migration process strictly adheres to the Oracle recommended process.

Migrated code is client maintainable for future enhancements and optimizations

Imex Systems Inc. provides optional post migration services like re-engineering, testing and deployment assistance.

Other ORMIS services include database migration and e-Business suite migration.

### Cut Migration Project Cost & Time by over 50%

#### KEY FEATURES

- Fully Automated Migration
- User Definable Graphical User Interface
- Convert V2 Triggers to PL/SQL
- Mouse Navigation Support
- Standardized Predefined Interface across All Forms
- Optimize PL/SQL
- Trigger, Object and Property Wizards
- Full Migration Log and Audit Trail
